<p>Example: Students in Design III will study the relationship between traditional and contemporary illustrations of children's literature. They will consider the Big Idea of Illustrate and the Key Question asking, "Can your images communicate as well or better than your words?" Each student develops a proposal for illustrating a children's book. They will make a rough draft of the text for their books and then make preliminary drawings for the text.</p>	

They will collaborate with other classmates on the effectiveness of the text, the drawings, and how the text fits the drawings. Suggestions and revisions will be made.

Students will research and then present their favorite children book to the class explaining how they have learned from the book.

Students will continue to polish their writing and illustrations until the books are complete and presented to an elementary class in the area.

After completion and presentation to the elementary children, students will participate in a written and oral class critique with the key input being about the artwork solution to the Key Question.

Students will evaluate their own artwork and add it to their portfolio body of work that constitutes evidence of their learning.
