Students in Printmaking II will create multicolor silk-screen prints. They are presented with the Big Idea of Intensity as it refers to vivid color. The teacher presents the Key Question, "How can you use color to express emotion?" Though considered a contemporary technique, students explore the history of silk screen and view works of Frank Stella, Andy Warhol, Robert Rauschenberg, and others. Students also look for examples of commercial silk screen in the world around them.

They create their own freeform designs and pull ten prints. With each new pull, students add more pigment and less base. After completion, students will participate in a written and oral class critique with the key input being about the artwork solution to the Key Question. Their prints should express emotion through color.

Students will evaluate their own artwork and add it to their portfolio body of work that constitutes evidence of their learning.

Differentiation Strategies for Students with Special Needs
