SCAMPER is a technique you can use to spark your creativity and help you overcome any challenge you may be facing. In essence, SCAMPER is a general-purpose checklist with idea-spurring questions — which is both easy to use and surprisingly powerful. It was created by Bob Eberle in the early 70s, and it definitely stood the test of time.

**SCAMPER Primer**

**SCAMPER is based on the notion that everything new is a modification of something that already exists.** Each letter in the acronym represents a different way you can play with the characteristics of what is challenging you to trigger new ideas:

- S = Substitute
- C = Combine
- A = Adapt
- M = Magnify
- P = Put to Other Uses
- E = Eliminate (or Minify)
- R = Rearrange (or Reverse)

To use the SCAMPER technique, first state the problem you’d like to solve or the idea you’d like to develop. It can be anything: a challenge in your personal life or business; or maybe a product, service or process you want to improve. After pinpointing the challenge, it’s then a matter of asking questions about it using the SCAMPER checklist to guide you.

Consider, for instance, the problem "How can I increase sales in my business?"

Following the SCAMPER recipe, here are a few questions you could ask:

- **S (Substitute):** "What can I substitute in my selling process?"
- **C (Combine):** "How can I combine selling with other activities?"
- **A (Adapt):** "What can I adapt or copy from someone else’s selling process?"
- **M (Magnify):** "What can I magnify or put more emphasis on when selling?"
- **P (Put to Other Uses):** "How can I put my selling to other uses?"
- **E (Eliminate):** "What can I eliminate or simplify in my selling process?"
- **R (Rearrange):** "How can I change, reorder or reverse the way I sell?"

These questions force you to think differently about your problem and eventually come up with innovative solutions.
SCAMPER Reference

You will find below a comprehensive help guide to using SCAMPER. There are more than 60 questions that can be asked, along with almost 200 words and expressions you can create associations with.

 Substitute

Think about replacing part of the problem, product or process with something else. By looking for replacements you can often come up with new ideas. You can change things, places, procedures, people, ideas, and even emotions.

Helper Questions

- Can I replace or change any parts?
- Can I replace someone involved?
- Can the rules be changed?
- Can I use other ingredients or materials?
- Can I use other processes or procedures?
- Can I change its shape?
- Can I change its color, roughness, sound or smell?
- What if I change its name?
- Can I substitute one part for another?
- Can I use this idea in a different place?
- Can I change my feelings or attitude towards it?

Trigger Words

alternate, colorize, exchange, fill in for, locum, proxy, relieve, rename, repackage, replace, reposition, reserve, shape, stand in for, surrogate, swap, switch, take the place of

 Combine

Think about combining two or more parts of your problem to create a different product or process or to enhance their synergy. A great deal of creative thinking involves combining previously unrelated ideas, goods, or services to create something new.

Helper Questions

- What ideas or parts can be combined?
- Can I combine or recombine its parts’ purposes?
- Can I combine or merge it with other objects?
- What can be combined to maximize the number of uses?
• What materials could be combined?
• Can I combine different talents to improve it?

Trigger Words

amalgamate, become one, blend, bring together, coalesce, come together, commingle, conjoin, fuse, intermix, join, link, merge, mingle, mix, package, relate, unite

💰 Adapt

Think about adapting an existing idea to solve your problem. The solution of your problem is probably out there already. Bear in mind that all new ideas or inventions are borrowed to some degree.

Helper Questions

• What else is like it?
• Is there something similar to it, but in a different context?
• Does the past offer any lessons with similar ideas?
• What other ideas does it suggest?
• What could I copy, borrow or steal?
• Whom could I emulate?
• What ideas could I incorporate?
• What processes can be adapted?
• What different contexts can I put my concept in?
• What ideas outside my field can I incorporate?

Trigger Words

acclimatize, adapt oneself, adapt, adjust, alter, amend, become accustomed, bend, change, conform, contextualize, copy, emulate, familiarize, find your feet, fit, get a feel for, get used to, incorporate, make suitable, match, modify, readjust, refashion, revise, rework, settle in, transform, vary

🔍 Magnify

Think about ways to magnify or exaggerate your idea. Magnifying your idea or parts of it may increase its perceived value or give you new insights about what components are most important.

Helper Questions

• What can be magnified or made larger?
- What can be exaggerated or overstated?
- What can be made higher, bigger or stronger?
- Can I increase its frequency?
- What can be duplicated? Can I make multiple copies?
- Can I add extra features or somehow add extra value?

**Trigger Words**

amplify, augment, boost, enlarge, expand, extend, grow, heighten, increase, intensify, lengthen, make seem more important, multiply, overemphasize, overstress, raise, strengthen, stretch out

**Put to Other Uses**

Think of how you might be able to put your current idea to other uses, or think of what you could reuse from somewhere else in order to solve your own problem. Many times, an idea only becomes great when applied differently than first imagined.

**Helper Questions**

- What else can it be used for?
- Can it be used by people other than those it was originally intended for?
- How would a child use it? An older person?
- How would people with different disabilities use it?
- Are there new ways to use it in its current shape or form?
- Are there other possible uses if it’s modified?
- If I knew nothing about it, would I figure out the purpose of this idea?
- Can I use this idea in other markets or industries?

**Trigger Words**

abuse, apply, avail yourself of, behave, benefit, bring into play, contextualize, deplete, draw on consume, employ, enjoy, exercise, exhaust, expend, exploit, get through, handle, luxuriate, make use of, manage, manipulate, mistreat, operate, reposition, source, spend, take advantage of, take pleasure in, tap, treat, use up, utilize, waste, wear out, work

**Eliminate (or Minify)**

Think of what might happen if you eliminated or minimized parts of your idea. Simplify, reduce or eliminate components. Through repeated trimming of ideas, objects, and processes, you can gradually narrow your challenge down to that part or function that is most important.

**Helper Questions**

- How can I simplify it?
• What parts can be removed without altering its function?
• What’s non-essential or unnecessary?
• Can the rules be eliminated?
• What if I made it smaller?
• What feature can I understate or omit?
• Should I split it into different parts?
• Can I compact or make it smaller?

**Trigger Words**

abolish, control, curb, destroy, disregard, do away with, eradicate, exclude, excrete, expel, exterminate, get rid of, jettison, kill, lessen, limit, liquidate, lower, moderate, modulate, pass, play down, purge, reduce, reject, remove, restraint, restrict, shorten, simplify, temper, throw out, tone down, underemphasize, waste, wipe out

**Rearrange (or Reverse)**

Think of what you would do if part of your problem, product or process worked in reverse or were done in a different order.

**Helper Questions**

• What other arrangement might be better?
• Can I interchange components?
• Are there other patterns, layouts or sequences I can use?
• Can I transpose cause and effect?
• Can I change pace or change the schedule of delivery?
• Can I transpose positives and negatives?
• Should I turn it around? Up instead of down? Down instead of up?
• What if I consider it backwards?
• What if I try doing the exact opposite of what I originally intended?

**Trigger Words**

adjourn, annul, back up, change the date, change, delay, drive backward, go backward, invalidate, invert, move backward, move, overturn, postpone, put off, quash, readjust, rearrange, relocate, render null and void, reorder, reorganize, repeal, reposition, reschedule, reshuffle, retreat, swap, switch, transpose, turn around, undo, withdraw

SCAMPER Resources

1. SCAMPER Random Question Tool

There are many ways to use SCAMPER. For example, you can sequentially go through all the questions in the previous section as fast as you can; or you can stay on each question until you think you exhausted all possibilities.

However, when it comes to creativity, getting random — and unexpected — input can really help your mind find a solution for that ‘impossible’ problem. With that in mind, as a companion to this article, I created the SCAMPER Random Question Tool: it shows you an unexpected question drawn from all the SCAMPER questions in the previous section. Think about a problem that has been nagging you then give the tool a try to see how many options you can generate.

   • SCAMPER Random Question Tool

2. SCAMPER Reference Mind Map

I’ve put together all the SCAMPER questions from the previous sections in a mind map, formatted for a single printed page. Think of it as a handy one-page reference you can use whenever you are stuck or just need a kick start to get your creative juices flowing.

   • SCAMPER Reference Mind Map [.pdf, 646 KB]

3. Thinkertoys Book

The best resource I know about SCAMPER is Michael Michalko’s wonderful book Thinkertoys; it has more than 40 pages dedicated to SCAMPER alone. Michael’s book is the most comprehensive creativity reference I have put my hands on: there are more than 40 creativity techniques that should suit every taste — from the most logic to the most intuitive types. Highly recommended!
